SafeCase™ **Galaxy S21**
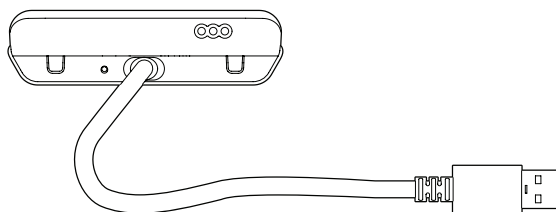

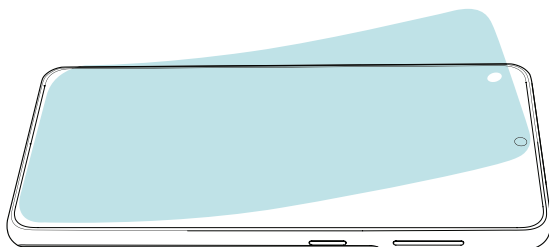

Quick Start Guide

DO NOT VOID YOUR WARRANTY. Please read the information included before using.
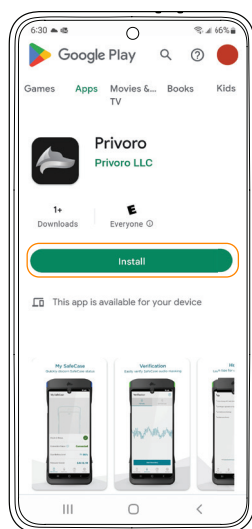

--- *SETUP* ---

STEP 1

Connect SafeCase to a USB power source (computer or power adapter) using the included charging cable.

STEP 2

If applicable, **remove the screen protector and/or protective case from your Galaxy**.

STEP 3

Download the Privoro app from the Play Store. Open the app and follow the on-screen prompts to pair to your SafeCase.

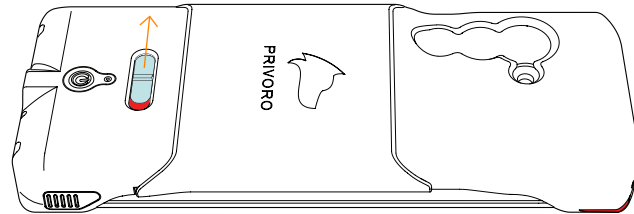

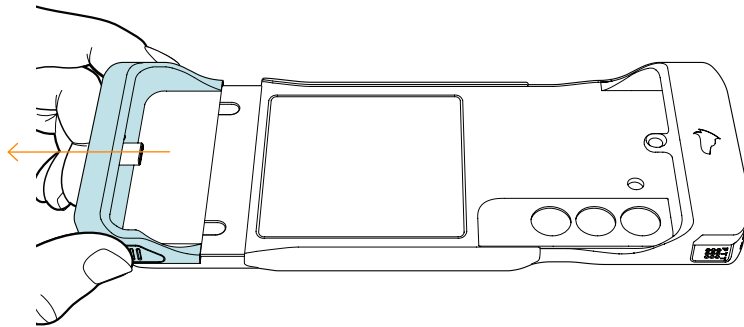

GET IT ON
Google Play

PRIVORO®

STEP 4

Insert your Galaxy into SafeCase. **Pull the latch slide to the left**, unlocking the base tray.

STEP 5

Gripping the sides, **slide the base** tray until it's fully extended.

STEP 6

Aligning your Galaxy's USB-C port over SafeCase's USB-C connector, tuck the bottom of your Galaxy into the base tray and then rest your phone onto the tray.
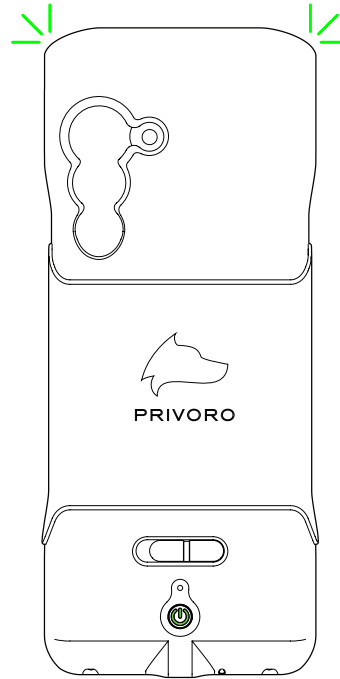

STEP 7

**Push up from the bottom** of the base tray until it clicks into place.

MAINTAINING AUDIO/VIDEO PROTECTIONS

When SafeCase is powered on, audio/video surveillance protections are automatically engaged, as indicated by the corner indicator LEDs pulsing green. To maintain these protections, simply **keep your SafeCase charged**.
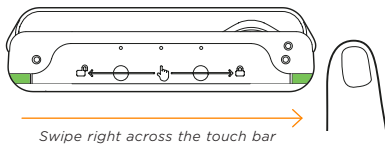

USING YOUR PHONE OR CAMERA

To place or receive a phone/video call or capture images/video/audio, protections must first be disengaged. To disengage protections, **swipe left (with the phone facing you) across the touch bar, toward the unlocked icon**.

Swipe left across the touch bar

When ready to reengage protections, **swipe right (with the phone facing you) across the touch bar, toward the locked icon**.

Swipe right across the touch bar

CHECKING SAFECASE STATUS

To check SafeCase battery level and app pairing status, **open the My SafeCase screen** in the Privoro app.
