

SafeCase

ONX™

Compatible Samsung Devices

Release Version: Sep 30th, 2025

Overview

SafeCase ONX is the product of a collaboration between Privoro and Samsung. It delivers secure, chip-to-chip integration that leverages Samsung HDM to provide secure hardware-level control for OEM COTS devices.

Due to the innovative nature of the Privoro-Samsung HDM integration, only select Samsung tablets and phone models have been certified for SafeCase ONX compatibility.
